PARTNER

PRICES - EQUIPMENT - TECHNICAL SPECIFICATIONS

Effective from 26 August 2026
2027 Model Year (B2)

LET'S BEGIN

PEUGEOT PARTNER

PEUGEOT PARTNER features a renewed design, improved efficiency, the latest-generation connectivity and more sophisticated driving aids.

It also retains the robustness, versatility and driving dynamics that have made it such a success with professionals. Within the interior, the driving position has been extensively redesigned for greater comfort, ergonomics and practicality. The dashboard and steering wheel have also been redesigned, while the digital instrument cluster and the large central 10" touchscreen make the interface between driver and vehicle an enjoyable and efficient one.

PEUGEOT PARTNER | STANDARD EQUIPMENT BY EDITION

PANEL VAN
PROFESSIONAL PLUS

STANDARD FEATURES INCLUDE

INFOTAINMENT

- Audio controls through steering wheel buttons
- PEUGEOT i-Connect infotainment system featuring:
  - 10" HD colour touchscreen
  - AM/FM/DAB digital radio
  - Wifi Mirroring
  - Bluetooth & 2 USB connection
  - Two speakers & two tweeters
- PEUGEOT Connect with RCE (emergency call and localisation assistance + offers of branded services)

INTERIOR CONVENIENCE AND STYLING

- 10" digital instrument cluster
- Steering column adjustable for reach and rake
- Full-width overhead storage shelf
- Air conditioning
- Driver's top-lidded glovebox
- Cruise control with speed limiter
- 12v socket in dashboard
- Moduwork with load-through bulkhead

SEATING

- Six-way adjustable driver's seat with lumbar adjustment
- Dual front passengers' fixed bench seat
  - Fold-flat centre seat backrest with table
  - Two-way foldable outer seat

EXTERIOR CONVENIENCE AND STYLING

- Electrically operated front windows with one-touch facility
- Nearside sliding side-access door
- Nearside and offside sliding side-access doors (XL)
- Asymmetrical solid panel rear doors
- Side-protection mouldings
- 16" steel wheels with centre caps

SAFETY AND SECURITY

- Rear parking distance sensors
- Lane keep assist
- Intelligent speed assistance
- Driver Attention Alert level 4 (included driver weariness camera)
- Advanced emergency braking system
- Electronic stability programme with traction control
- Anti-lock braking system
- Driver and front passengers' airbags
- Side-impact airbags
- Height-adjustable front seatbelts
- Hill start assist
- Remote control central deadlocking
- Engine deadlock immobiliser
- Electric Parking brake
- Tyre pressure monitoring system
- Emergency tyre inflation kit

LIGHTING AND VISIBILITY

- Electrically adjustable/heated door mirrors
- High beam assist
- Automatic lighting control
- ECO LED Headlights with daytime running lamps (DIESEL only)

ELECTRIC VEHICLE SPECIFIC

- Mode 3 charging cable with Type 2 connectors (6 meters) – for accelerated charging from wall boxes and dedicated public charging points
- 7.4kW single-phase onboard charger
- AVAS: Acoustic Vehicle Alerting System. Generates a sound when travelling at low speed, audible outside the vehicle for pedestrian safety

CREW VAN

ADDITIONAL FEATURES

- 5-seater configuration
- Four-way adjustable passenger seat with storage/trays on back of seat
- Three-seat second-row bench with lap and diagonal seatbelts
- Two-position moveable ladder frame bulkhead
- PEUGEOT i-Connect Advanced infotainment system including Connected Navigation featuring:
  - Fully integrated Satellite Navigation system
  - 10" HD colour touchscreen
  - AM/FM/DAB digital radio
  - Wifi Mirroring
  - Bluetooth & 2 USB connection
  - Two speakers and two tweeters
- Plastic load floor covering

*Either available via MyPEUGEOT App (6 months free subscription trial – for more information click here) or via PEUGEOT i-Connect® infotainment system.

PEUGEOT PARTNER | ALSO INCLUDES A FLEET MANAGEMENT SERVICE OFFER….

STELLANTIS

PREVENTIVE MAINTENANCE

FOR 4 YEARS FOR CUSTOMERS MANAGED BY DEALERS

(B2C & SME)

The Preventive Maintenance Service is designed to help monitor and optimise the health of commercial vehicle fleets, offering support through live alerts and upcoming maintenance reports. This makes it easier for fleet managers to keep their vehicles in good working condition, saving time and money.

- Fleet Dashboard View
- Maintenance Tracking
- Report via Email
- Vehicle Health Alerts
- Van Maintenance Appointment

Connect Fleet

Customers can upgrade (via subscription) to Connect Fleet. This management platform is a full version opening up a broader spectrum of possibilities. With Connect Fleet customers can optimise the use of their vehicles by gaining access to consumption reports, mechanical alerts, eco driving and driving behaviour reports and vehicle geolocation in the event of theft in real time.

*Replacing the traditional lever, the Automatic transmission selection-mode dial/drive wheel is an innovative solution that is both elegant and intuitive. By simply twisting the dial, the following modes can be selected:

- Park, for when the vehicle is stationary and the wheels are locked
- Drive, for Automatic forward motion
- Neutral, for when the vehicle is stationary, wheels are free
- Reverse, for Automatic backward motion

For an extra experience of dynamism, the shift paddles for Automatic transmissions are located behind the steering wheel, offering drivers an extra level of control that is highly ergonomic and intuitive. The shift paddles function in the following way:

- To go up a gear, the driver must pull the right lever towards themselves
- To go down a gear, the driver must pull the left lever towards themselves

PEUGEOT PARTNER | GLOSSARY OF TERMS

PLATED WEIGHT

The maximum weight to which a vehicle or an axle may be loaded, determined either by the design of the components or by legislation. All commercial vehicles must carry a manufacturer's 'plate' showing the vehicle and axle gross 'plated weights'. It is an offence to drive a vehicle in a condition where any of these weights are exceeded.

KERB WEIGHT

The Minimum Mass minus the driver's weight. When Kerb Weight used, driver weight is included within the Maximum Indicative Payload weight.

MINIMUM MASS

Minimum Mass ('Mass in running order' on Certificate of Conformity and 'Mass in Service' on V5C form) is defined according to European Type Approval and include all fluids, tools and 90% fuel load. It is minimum mass for this variant and does not consider local specification/trim or deletable options (specific to Boxer). Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance).

GROSS VEHICLE WEIGHT (GVW)

The total permissible weight of a vehicle including payload and passengers, as shown on the manufacturer's plate.

GROSS COMBINATION WEIGHT (GCW)

The maximum permissible weight of a vehicle, including payload and passengers, combined with the total weight of any trailer it is towing. The maximum GCW weight limit is quoted on the vehicle plate and must not be exceeded.

PAYLOAD

The total permissible weight that can be carried without exceeding the vehicle's plated weight. Payload do not include driver but do take into consideration specification/trim level:

Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance). Payload does not consider any additional options that a customer may order.

ROOF LOADS

Roof load should not exceed 100kg including the weight of the roof rack/carrier.

MAXIMUM TOWING WEIGHT

The maximum weight of any trailer and its load which may be towed within the limit of the vehicle's plated Gross Combination Weight (GCW). It is based on the ability of the vehicle – at full GCW – to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. It is the operator's responsibility to ensure that the trailer noseweight does not cause the rear axle plated weight of the towing vehicle to be exceeded.

Always fit PEUGEOT towing attachments and accessories available from your PEUGEOT Commercial Vehicle Retailer. They are designed specifically for PEUGEOT models and carry a 12-month warranty.

COMMERCIAL VEHICLE CATEGORIES

Category M: Passenger carriers

Category N1: Vehicles designed and constructed for the carriage of goods and having a maximum mass not exceeding 3.5 tonnes.

CONVERSIONS

Body builders requiring conversion guidance including 2D drawings & 3D CAD should establish an account at www.converters-and-stellantis.com
